

Mohd Alam

I am a front-end-developer. I have 3 years experience.

Objective:

I am a front-end-developer. I have 3 years experience. I make the website fully responsive. I also optimize the website for all devices, optimize the website and it runs very fast on the browser. I also do Testing and Debugging. I have also worked with the team.

Within the team, I had the role of front-end developer. After designing the website, I used to implement an API on it and I manage my code through git, github and netlify. When I face a problem, I solve it quickly. I have designed and developed many websites. Such as: Corporate, eCommerce, Blog Magazine, Entertainment, Technology, Education, Real Estate, Wedding.

See the website url and video on my portfolio.
